Sir,
This is Saahil Jain, PES1201700241 from team PW21KS04.
PFA the documents we need to submit for the capstone project.
I had doubts regarding 2 documents sir.

1. Project Requirements Specification - This seems to be applicable for a product however they haven't mentioned anything. Is it okay if we don't submit given that our project is a research project?
2. Research Paper - Given we have a research paper ready and we aren't submitting the Project Requirements Specification document is it right to submit the research paper along with the other files?

Sir we need a reply stating your consent for us to submit these files.
Thank you.

Sincerely
Saahil Jain
